

Special report of opt. #15

Mullan, Idaho, Saturday, Jan. 13th-06.

Burkbridge, or a man of a similar name, formerly superintendent of the Bunker Hill & Sullivan, is in danger every time he goes up the Burke canyon. If he ever goes down into the Frisco mine he is, in the vernacular of the man, a "goner"; they are going to kill him on the cage if they have to run it into the shive. They are bitter against him.

Every new man coming into the district is initiated into the union and all old members who are behind with their dues are being urged to pay up.

Yours respectfully,

Reported,  
Spokane-1-16-06. R.
