

#24 reports,

Wardner, Idaho, Wednesday, Jan. 31st-06.

I went to work last night at 6:30 and after being in the mine half an hour was made deathly sick with gas and had to come out and go home. I have been ill all day today, scarcely able to move around, but will report for duty as soon as possible.

The Bunker Hill & Sullivan is on fire. How serious I cannot learn, but will report as soon as I can find out.

Yours respectfully,

Reported,
Spokane-2-1-06. R.
