

Bunker Hill & Sullivan.

Seattle, Wash., Nov. 15, 1900.

Operative reports that since twelve of the sixteen men recently elected, are democrats, the W.F. of M. men feel much elated, and feel that in the future the Union will command recognition.

On the 11th the Wardner Miners' Union initiated three new members, while six old timers paid up their dues. Five more men have signified their intentions to join the union after pay day.

There are many men known as scabs whom the union will not admit to membership.

C.S. Stratten told operative that The Empire State Mine intends to make John Pressley foreman as he can get out more ore than the present foreman, Peoples. Stratten says that if Pressley gets the foremanship, union men only will be employed and that all of the hay makers who are now at work in the mines will have to walk down the hill.

The following is a list of union men whose names operative has procured:
